**Subject:** CRU-Specific HASP, QAPP, and Work Plan  
**Attachments:** CRU Comparable maps 07-31-15.pdf

Good Evening:

Thanks again for all the hard work. All three documents (HASP, QAPP, and Work Plan) can be finalized. As usual, we can tweak the plans as needed once we get more involved with the site. I have attached a document that contains three diagrams. Nothing fancy but something I threw together to assist the Health Physicist in comparing old diagrams to Pre-Remedial.

- A historical diagram of the site with some added outlines to show where the current buildings are located
- A simple diagram with the buildings outlined in white that will have internal survey and radon sampling work
- The Pre-Remedial gamma survey diagram.

If you feel that it is appropriate, you can add to Attachment A section of the Work Plan.

The HASP is the only document I would like printed out for Monday.

**We are shooting for 830 AM arrival time at the site.**

- Initial Health and Safety meeting
- Introductions
- OSCs site walk with property representatives/tenants while background readings obtained by contractors
- Refine work plan and Health and Safety plan
- Begin assessment work

**Anticipated personnel at the site during the week:**

USEPA

Eric Daly-OSC

Dan Gaughan-OSC

Oleg Povetko-Health Physicist

USEPA Technic Contractor

Weston Solutions, Inc. - Radiological Investigation and Soil Sampling

Bernard Nwosu

Joel Siegel

Robert Croskey  
Lionel Montanez

Weston Subcontractors  
Precision Environmental Inc. - Radon Sampling  
Andreas Andreou-Radon Specialist

Environmental Field Service - Geoprobe Team  
We do not have a name for now but we can find out on  
Monday since they will not be on site until Wednesday.

**Subject:** Canadian Radium and Uranium Corporation Draft Site-Specific HASP, QAPP, and Work Plan

Eric,  
Please find attached the electronic versions of the Site-Specific HASP, the Site-Specific QAPP, and the Draft Radiological Survey Work Plan for activities to be conducted at the Canadian Radium and Uranium Corporation Site (TDD No. 0006-0053) located in Mount Kisco, NY, beginning on August 3, 2015. If you require hard copies, please let me know. Please let Ben know about any changes or questions you have to any of the documents.
